Forecast for Wednesday 06 Dec 2023

Weather: Dry, clear and very cold with fog patches forming in the glens overnight. The day will be dry, bright and very cold with high cloud. Cloud will lower in the southwest from late afternoon bringing light snow. Cloud and snow spread northeast turning heavier later. Southeast winds strengthen from late afternoon, reaching gale force across the summits.

Chance of cloud-free hill tops above 800m: 90%

Low Cloud and visibility: The visibility will remain good in mostly cloud free skies through the day. Cloud 600-800m will increase from the late afternoon bringing increasing snow and lowering the visibility to very poor.
